60CM MULTIFUNCTION SMART CLEAN OVEN

FEATURES & BENEFITS

6TH SENSE READY TO COOK

Ready to cook allows up to 20%* energy and 25%* time saving since there is no need to preheat the oven. The intuitive 6th SENSE programmer automatically sets the right function and proposes a temperature range for 6 commonly cooked food categories.

SMART CLEAN

The action of the steam released during this special low-temperature cleaning cycle allows dirt and food residues to be removed with ease. Pour 200ml of drinking water on the bottom of the oven and use the function for 35 minutes at 90°C. Activate the function when the oven is cold and let it cool down for 15 minutes once the cycle ends.

COOK 3

5 shelf positions and a highly advanced airflow distribution system allows you to simultaneously prepare up to 3 separate dishes in the oven's large cavity without the smells and flavours mixing.

FAN FORCED AIR COOKING SYSTEM

A quick and easy cooking method that doesn't require pre-heating. The fan distributes hot air evenly to all parts of the oven and even allows you to cook different foods simultaneously without mixing.

WARRANTY

Guarantees peace of mind and value for money knowing that any product fault or defect is covered by full replacement parts and/or a service call to ensure the product works as described.
