

FSCR10421

9KG SupremeCare Front-Loader Washing Machine

FEATURES & BENEFITS

6TH SENSE INTELLIGENCE

Innovative 6th Sense technology automatically adjusts washing settings based on your load. Cycle speed and movements are adapted in response to load size, while the spin cycle pulsing feature helps fabric fibres breathe.

FRESHCARE+

FreshCare has been developed as a feature that gently tumbles your clothes sporadically for a just washed feel even up to 6 hours after the cycle ends. Resulting in washing that smells fresh and is less wrinkled even when not removed immediately after the cycle.

ZEN TECHNOLOGY

Technology that reduces noise and vibrations that arise during washing. A direct drive Sense Inverter Motor offers ongoing superior performance with operation quiet enough for night time.

DOSING RECOMMENDATION

Adaptive sensors detect the optimal amount of detergent required for each wash to avoid excess use and detergent. Eliminating detergent residue and providing a most cost efficient wash cycle.

SOFT MOVE

SoftMove uses a unique ultra-soft drum pattern and movement to wash your clothes with a gentle touch, so fibres, shapes and colours are protected.
